

Institute of Green Economy (IGREC) announces a training programme of 1 week on “**LULUCF and REDD+**” for students who wish to build a career in the carbon offset industry and for professionals working in related fields.

OBJECTIVES OF THE TRAINING PROGRAMME

The programme aims to train working professionals as well as fresh graduates on the science and policy aspects of Land use and Land use change, core issues in a wide range of mitigation and adaptation options related to LULUCF, evolution of REDD, the main difficulties likely to be encountered in REDD, REDD in voluntary carbon markets, and how various stake holders may develop meaningful projects under the VCS system.

The programme would cover:

LULUCF

Mitigation and Adaptation issues in LULUCF

Reducing Emissions from Deforestation and Degradation

REDD Project Design

REDD Baseline and monitoring methodologies

ELIGIBLE PARTICIPANTS

Post Graduates of environmental science and other natural and physical sciences, foresters, professionals in relevant fields

BRIEF ABOUT INSTITUTE OF GREEN ECONOMY

Institute of Green Economy (IGREC) has been set up with the aim of helping evolve a path of economic development that leaves as little negative impacts on the earth and its environment as possible, even as it brings the humanity quickly out of the vicious circle of poverty.

Located in New Delhi, IGREC has been registered as a Non-profit Society under the Act XXI of 1860 in order to promote research and development of projects and programmes in the field of climate change mitigation & adaptation and it works in close collaboration with international organisations like UNEP, FAO and ITTO as also with the central and state governments of India.

IGREC specialises in Clean Development Mechanism and has worked extensively in this area especially in the preparation of Project Design Document for the Clean Development Mechanism Projects. It has helped in organizing international and national workshops in the above areas to create awareness and facilitate exchange of knowledge.

Training and capacity building is imparted to various stakeholders including IFS officers, policy makers, technocrats, students and interested persons in the following areas:

1. Clean Development Mechanism
2. Mitigation and Adaptation of Climate Change
3. Effect of Climate Change on Glaciers
4. Forests and Climate Change
5. Community development through adaptation of Climate Change.

6. Bio-energy
7. Low Carbon Economy
8. Carbon Markets
9. REDD

Besides, it has been providing technical consultancy services and organising capacity building services all over the country.

FEE

The training is available at a fee of only Rs.7, 500/- per participant. 50% discount for students.

The course fee should be paid in advance by demand draft/cheque in the name of Institute of Green Economy (IGREC) payable at New Delhi

CERTIFICATION

Participants will get a certificate at the end of the course.

Dates of Courses

The training shall start on the 1st and the 3rd week of each month.

For a group of minimum of six trainees customized courses and flexible dates of the beginning of the course would be possible.

HOW TO APPLY

Please write to Administrative & Financial Officer at contact@igrec.in giving personal details and qualification.
