

Institute of Green Economy (IGREC) announces a three month training programme on “**Climate Change Mitigation and Adaptation: Project development for Mandatory and Voluntary Carbon Markets**” for recently graduated students who wish to build a career in the carbon offset industry.

### **OBJECTIVES OF THE TRAINING PROGRAMME**

The programme aims to train fresh graduates on the science and policy aspects of climate change, core issues in a wide range of mitigation and adaptation options, Kyoto Flexibility options, existing CDM regulations and requirements, voluntary carbon markets, and how various stake holders may develop meaningful projects that get host country approval and CDM registration.

The programme would cover:

Core elements of Climate change science

Policy aspects

Mitigation and Adaptation options

LULUCF

CDM Project Design & Development

Preparing PDD for Mandatory and Voluntary Projects

Validation & Verification Process

Project Cycle, Baseline & Leakage

Voluntary Carbon Market

Reducing Emissions from Deforestation and Degradation

Climate and Mountains

### **ELIGIBLE PARTICIPANTS**

Students of environmental science, natural and physical sciences, engineering, economics and journalism

### **BRIEF ABOUT INSTITUTE OF GREEN ECONOMY**

Institute of Green Economy (IGREC) has been set up with the aim of helping evolve a path of economic development that leaves as little negative impacts on the earth and its environment as possible, even as it brings the humanity quickly out of the vicious circle of poverty.

Located in New Delhi, IGREC has been registered as a Non-profit Society under the Act XXI of 1860 in order to promote research and development of projects and programmes in the field of climate change mitigation & adaptation and it works in close collaboration with international organisations like UNEP, FAO and ITTO as also with the central and state governments of India.

IGREC specialises in Clean Development Mechanism and has worked extensively in this area especially in the preparation of Project Design Document for the Clean Development Mechanism Projects. It has helped in organizing international and national workshops in the above areas to create awareness and facilitate exchange of knowledge.

Training and capacity building is imparted to various stakeholders including IFS officers, policy makers, technocrats, students and interested persons in the following areas:

1. Clean Development Mechanism
2. Mitigation and Adaptation of Climate Change
3. Effect of Climate Change on Glaciers
4. Forests and Climate Change
5. Community development through adaptation of Climate Change.
6. Bio-energy
7. Low Carbon Economy
8. Carbon Markets
9. REDD

Besides, it has been providing technical consultancy services and organising capacity building services all over the country.

### **FEE**

The training is available at a fee of only Rs. 30,000/- per participant. 50% discount for fresh students who have graduated in 2011. A further 25% discount for students belonging to SC/ST and OBC groups, and for needy students on the recommendation of their institutions.

The course fee should be paid in advance by demand draft/cheque in the name of Institute of Green Economy (IGREC) payable at New Delhi

### **CERTIFICATION**

Participants will get a certificate at the end of the course.

### **Dates of Courses**

September 1, 2011

December 1, 2011

For a group of minimum of six trainees customized courses and flexible dates of the beginning of the course would be possible.

### **HOW TO APPLY**
